Disclosures and Notes Originally Issued in Turkish)*

(Convenience translation of a report and consolidated financial statements originally issued in Turkish)

Report on Review of Consolidated Interim Financial Statements

To the Board of Directors of Türk Reasürans Anonim Şirketi,

Introduction

We have reviewed the accompanying consolidated interim statement of financial position of Türk Reasürans Anonim Şirketi (“the Group”) as of June 30, 2023 and the consolidated interim statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Group management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with the prevailing accounting principles and standards as per the insurance legislation and Turkish Financial Reporting Standards for the matters not regulated by insurance legislation; “Insurance Accounting and Financial Reporting Legislation” Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim consolidated financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not present fairly, in all material respects, the financial position of the Group as at June 30, 2023, and of its financial performance and its cash flows for the six-month period then ended in accordance with the prevailing accounting principles and standards set out by the Insurance Accounting and Financial Reporting Legislation.

1.6 Wages and similar benefits provided to the senior management

For the period that ended on June 30, 2023, TL 685.122 to the chairman and members of the board of directors (January 1 - June 30, 2022: TL 592.362), TL 14.972.559 (January 1 - June 30, 2022: TL 6.029.479) wages and similar benefits were provided to senior executives.

1.7 Keys used in the distribution of investment income and operating expenses (personnel, administrative, research and development, marketing and selling, services rendered from third parties and other operating expenses) in the financial statements

Procedures and principles related to keys used in the financial statements of the companies are determined in accordance with the January 4, 2008 dated and 2008/1 numbered "Communiqué Related to the Procedures and Principles for the Keys Used in the Financial Statements Being Prepared In Accordance With Insurance Accounting Plan" issued by the Republic of Turkey Ministry of Treasury and Finance.

In accordance with the above-mentioned communiqué, companies may transfer the operating expenses of the technical section to the insurance section through method determined by the Republic of Turkey Ministry of Treasury and Finance or by the companies' own method which approved by Republic of Turkey Ministry of Treasury and Finance. In this framework, the Group directly allocates its costs, which are certainly documented to be made for related branches and for which there is no hesitation regarding the ownership of such costs to respective branches while it allocates its other operating expenses based on their shares within the total gross written premium during a period for each sub-branches.

Investment income from the assets covering the non-life technical provisions is transferred to technical section from non-technical section; other investment income is remained in the non-technical section. Income is distributed to the sub-branches in accordance with the percentage calculated by dividing "net cash flow" to the "total net cash flow". Net cash flow is calculated by deducting net claims paid from net written premiums.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

1 General Information (continued)

1.8 Information on the consolidated financial statements as to whether they comprise an individual Company or a group of companies

The accompanying consolidated financial statements consist of the consolidated financial statements of Türk Katılım Reasürans A.Ş. and T Rupt Teknoloji A.Ş, subsidiaries of the Company, according to the full consolidation method. Information about the consolidation principles applied is explained in detail in the Note 2.2 – Consolidation note.

1.9 Name or other identity information about the reporting entity and the changes in this information after previous reporting date

Trade name of the Company	: Türk Reasürans Anonim Şirketi
Registered address of the head office	: Saray Mahallesi Dr. Adnan Büyükdeniz Caddesi Ak Ofis No:8/1, 34768 Ümraniye, İstanbul
The web page of the Company	: www.turkreasurans.com.tr

There has been no change in the information presented above since the previous reporting period.

1.10 Subsequent events to date of balance sheet

The financial statements prepared as at June 30, 2023, have been approved by the Company's Board of Directors on September 29, 2023.

Explanations related to date of balance sheet subsequent events are disclosed in Note 46 – Subsequent events.

2 Summary of significant accounting policies

2.1 Basis of preparation

2.1.1 Information about the principles and the specific accounting policies used in the preparation of the financial statements

The Group prepares its consolidated financial statements in accordance with the accounting principles and standards in force as per the regulations of Insurance Law numbered 5684 published in the Official Gazette dated June 14, 2007 and numbered 26522, and other regulations, statements and guidance issued by the Insurance and Private Pension Regulation and Supervision Agency ("IPPRSA") established by the Presidential Decree dated October 18, 2019 and "Communiqué Related to the Financial Reporting of Insurance, Reinsurance, and Individual Pension Companies" contains terms of Turkish Accounting Standards ("TAS") and Turkish Financial Reporting Standards ("TFRS"). The insurance legislation before the establishment of IPPRSA had been published by the Republic of Turkey Ministry of Treasury and Finance.

According to numbered 4th of related law, the procedures and principles regarding the accounting of insurance contracts, subsidiaries, jointly controlled partnerships and associates and the preparation of financial statements to be announced to the public and related disclosures and notes are determined by notices to be issued by the Republic of Turkey Ministry of Treasury and Finance.

The "Communiqué on Presentation of Financial Statements" published in the Official Gazette numbered 26851 and dated April 18, 2008 and "Communiqué on Presentation of Financial Statements with the New Accounting Codes" numbered 2012/7 and dated May 31, 2012 and published by the Republic of Turkey Ministry of Treasury and Finance determines the comparison of the financial statements with the prior periods and also other companies in terms of the format and content.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.2 Other accounting policies appropriate for the understanding of the financial statements

Accounting in hyperinflationary countries

Financial statements of the Turkish entities have been restated for the changes in the general purchasing power of the Turkish Lira based on TAS 29 – Financial Reporting in Hyperinflationary Economies as at December 31, 2004. TAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting period, and that corresponding figures for previous years be restated in the same terms.

In accordance with TAS 29 Financial Reporting in Hyperinflation Economies, entities whose functional currency is the currency of a hyperinflationary economy require to prepare their financial statements in terms of the measuring unit current at the balance sheet date. TAS 29 describes characteristics that may indicate that an economy is hyperinflationary and it recommends all entities that report in the currency of the same hyperinflationary economy apply this Standard from the same date. Therefore, it is expected that TAS 29 will start to be applied simultaneously by all entities with the announcement of Public Oversight Accounting and Auditing Standards Authority to ensure consistency of the application required by TAS 29 throughout the country. Nevertheless, the Authority has not published any announcement on whether the entities would restate their financial statements for the accounting period ending on June 30, 2022 in accordance with TAS 29. In this context, as of June 30, 2023 are not adjusted for inflation in accordance with TAS 29.

Other accounting policies

The Group record premiums, commissions and claims accruals based on the notifications sent by the insurance and reinsurance companies after the closing of their balances. Premiums, commissions and claims accruals are recorded in the accompanying consolidated financial statements with the three-month delay. Therefore, related consolidated income statement balances consist of amounts for the three-months period ended October 1 - December 31, 2022 and also for the three-months period ended January 1 – March 31, 2023. Accordingly related balance sheet balances as of June 30, 2023 do not reflect the actual position. According to the letter dated September 1, 2020 and numbered 97354901-040.03.E.474952 sent by IPPRSA to the Company, it is stated that account statements sent by the ceding companies are subject to possible delays and Republic of Turkey Ministry of Treasury and Finance is considered special situations of the reinsurance companies in their regulations.

Information on other accounting policies is explained above in the section 2.1.1 - *Information about the principles and special accounting policies used in the preparation of the financial statements* and each under its own heading in the following sections of this report.

2.1.3 Current and presentation currency

The accompanying consolidated financial statements are presented in TL, which is the Group’s functional currency.

2.1.4 Rounding scale of the amounts presented in the financial statements

Financial information presented in TL, has been rounded to the nearest TL values.

2.1.5 Basis of measurement used in the preparation of the financial statements

The accompanying consolidated financial statements are prepared on the historical cost basis except financial assets held for trading, available-for-sale financial assets, derivative financial instruments which are measured at their fair values in case of reliable measures are available.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.6 Accounting policies, changes in accounting estimates and errors

If changes of accounting estimations are related to only one period, it is applied on current period which is change made. If it's related to future period, it is applied rewardingly on future period.

Significant changes in accounting policies and identified significant accounting errors are applied retrospectively and previous period of financial statements are restated.

In current period, there is no changes in accounting policies and no significant accounting errors identified.

Critical accounting judgements used in applying the Group's accounting policies are explained in 3 – *Critical accounting estimates and judgments in applying accounting policies*.

2.2 Consolidation

“Circular Related to the Preparation of the Consolidated Financial Statements of Insurance, Reinsurance and Individual Pension Companies” (“the Circular for Consolidation”) issued by Republic of Turkey Ministry of Treasury and Finance in the Official Gazette dated December 31, 2008 and numbered 27097 requires that insurance, reinsurance and individual pension companies issue consolidated financial statements starting from March 31, 2009.

In this framework, the financial statements of the Company's subsidiaries, Turk Katılım Reasürans A.Ş and T Rupt Teknoloji A.Ş, are included in the consolidated financial statements to be prepared using the full consolidation method in accordance with the provisions of the *Circular for Consolidation* and *TFRS 10 Consolidated Financial Statements*.

Within the framework of *TAS 27 Consolidated and Separate Financial Statements*, *TFRS 10 Consolidated Financial Statements* and *Circular for Consolidation*, consolidated financial statements have been prepared in accordance with the same account chart and by eliminating all related equity, income, expense, and cash flows, as well as intra-Group assets and liabilities.

According to the *Circular for Consolidation*, the Group excludes investments with a capital share of less than 10% that do not have a significant impact on the scope of consolidation, either directly or indirectly, and are accounted for at cost in financial assets.

Information on subsidiaries included to consolidation is as follows:

Name	Shareholding rate	Total asset	Total equity	Net profit / (loss) for the period	Whether it has passed independent audit	Period
Türk Katılım Reasürans A.Ş.	100%	704.240.921	113.982.921	9.820.785	Limited reviewed	June, 30 2023
T Rupt Teknoloji A.Ş.	100%	63.345.737	61.193.598	11.125.596	Limited reviewed	June, 30 2023

2.3 Segment reporting

As of June 30, 2023, the Group does not prepare the segment reporting since the Group has being continuing their activities in mainly Turkey in non-life insurance branches that is recording as only one reportable segment in scope of *TFRS 8- “Activity Segments”* standard and also the Group is not publicly held.

2.4 Foreign currency transactions

Transactions are recorded in TL, which is the Group's functional currency. Transactions in foreign currencies are recorded at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date and all exchange differences, except for those arising on the translation of the fair value change of available-for-sale financial assets, are offset and are recognized as foreign exchange gains or losses.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.5 Tangible assets

Tangible assets are shown by deducting accumulated depreciation from the acquisition cost. Depreciation is allocated based on the useful lives of tangible assets by using the straight-line method. The depreciation periods estimated based on the useful lives of tangible assets are as follows:

Tangible assets	Estimated useful lives (years)	Depreciation rates (%)
Machinery and equipment	3 – 10	33,3 – 10,0
Furniture and fixtures	5 – 10	20,0 – 10,0
Other tangible assets (includes leasehold improvements)	5	20,0
Leased tangible assets	2 – 5	50,0 – 20,0

In case of there are indicators of impairment on tangible assets, a review is made in order to determine possible impairment and when the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the balance of impairment associates with expense accounts.

As of June 30, 2023, the Group has no any impairment on tangible assets (December 31, 2022: None). Gains and losses on the disposal of tangible assets are determined in reference to their carrying amounts and are taken into account in determining operating profit and losses (Note 6).

Gains/losses arising from the disposal of the tangible assets are calculated as the difference between the net carrying value and the proceeds from the disposal of related tangible assets and reflected to the statement of income of the related period.

Assets held for use in the construction, or for leasing, administrative or any other purposes are carried at cost, less any impairment. Legal charges are also added to costs. For assets that need substantial time to be ready for use or sale, borrowing costs are capitalized based on the Group's accounting policy.

Maintenance and repair costs incurred in the ordinary course of the business are recorded as expense.

There are not any pledges, mortgages and other encumbrances on tangible assets.

There are not any changes in accounting estimates that have significant effect on the current period or that are expected to have significant effect on the following periods.

2.6 Investment property

As at June 30, 2023, the Group has not any investment property (December 31, 2022: None).

2.7 Intangible assets

Intangible fixed assets include the acquired information systems, franchise rights and computer software. Intangible fixed assets are recorded at their acquisition cost in accordance with TAS 38 - Accounting Standard for Intangible Fixed Assets and are subjected to depreciation with the straight-line depreciation method over their estimated useful lives after the date of acquisition. In case of impairment, the registered value of intangible fixed assets is brought to their recoverable value. As of June 30, 2023, the Group does not have any intangible fixed assets impaired (December 31, 2022: None) (Note 8).

Expenditures that are under the control of the Group, that can be directly associated with identifiable and unique software products and that will provide economic benefits above their cost for more than one year are considered as intangible assets.

The depreciation periods of intangible fixed assets vary between 3 and 15 years.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.8 Financial assets

A financial asset is any asset that is cash, an equity instrument of another entity, a contractual right to receive cash or another financial asset from another entity; or to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

Financial assets are classified in four categories; as financial assets held for trading, available-for-sale financial assets, held to maturity financial assets, and loans and receivables.

Financial assets at fair value through profit or loss are presented as financial assets held for trading in the accompanying consolidated financial statements and trading securities and derivatives are included in this category. Financial assets at fair value through profit or loss measured at their fair values and gain/loss arising due to changes in the fair values of related financial assets is recorded in profit / loss. Interest income earned on trading purpose financial assets and the difference between their fair values and acquisition costs are recorded as interest income in the statement of income. In case of disposal of such financial assets before their maturities, the gains/losses on such disposal are recorded under trading income/losses. Accounting policies of derivatives are detailed in note 2.10 – *Derivative financial instruments*.

Held to maturity financial assets are the financial assets with fixed maturities and fixed or pre-determined payment schedules that the Group has the intent and ability to hold until maturity, excluding loans and receivables. Subsequent to initial recognition, held to maturity financial assets and loans and receivables are measured at amortized cost using effective interest rate method less impairment losses, if any. The Group has no financial assets that are allowed to be classified as held to maturity financial assets.

Available-for-sale financial assets are the financial assets other than assets held for trading financial assets, held-to-maturity financial assets and loans and receivables.

Available-for-sale financial assets are initially recorded at cost and subsequently measured at their fair values. Unrecognized gains or losses derived from the difference between their fair value and the discounted values calculated per effective interest rate method are recorded in “Revaluation of financial assets” under shareholders’ equity. The realized gain or losses through disposal are recognized directly in the statement of income.

The determination of fair values of financial instruments not traded in an active market is determined by using valuation techniques. Observable market prices of the quoted financial instruments which are similar in terms of interest, maturity and other conditions are used in determining the fair value.

The Group has accounted equity shares classified as available-for-sale according to quoted market prices or dealer price quotations for financial instruments traded in active markets or according to cost less impairment losses for financial instruments not traded in active markets.

Investments in equity shares are shares and partnership interests, in which the Group has a share less than 10% and which are not participating in the determination of partnership policies and management of other companies directly or indirectly and are acquired for the purpose of investment. Differences between fair value and book value of such securities are recognized under “Revaluation of financial assets” within equities items provided they can be measured reliably with their book values. Market value securities are demonstrated under assets with their market value while others are demonstrated with their net value subsequent to impairment from their book values, if available.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.8 Financial assets (continued)

Subsidiaries are partnership shares in which the Group's share is more than 50% or in which it has the opportunity to manage its activities that significantly affect the returns of the invested partnership. In accordance with the provisions of the Consolidation Circular and IFRS 10 Consolidated Financial Statements subsidiaries are, including in the scope of consolidation in the content of the consolidated financial statements.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable. Loans and receivables are measured at amortized cost by effective interest method less impairment losses, if exist.

Securities are recognized and derecognized at the date of settlement.

A financial asset is derecognized when the control over the contractual rights that comprise that asset is lost. This occurs when the rights are realized, expired or surrendered.

2.9 Impairment on assets

Impairment on financial assets

Financial assets or group of financial assets are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such indication exists, the Group estimates the amount of impairment. Impairment loss incurs, if and only if, there is objective evidence that the expected future cash flows of financial asset or group of financial assets are adversely affected by an event(s) (“loss event(s)”) incurred subsequent to recognition. The losses expected to incur due to future events are not recognized even if the probability of loss is high.

Loans and receivables are presented net of specific allowances for uncollectibility. Specific allowances are made against the carrying amounts of loans and receivables that are identified as being impaired based on regular reviews of outstanding balances to reduce these loans and receivable to their recoverable amounts.

The recoverable amount of an equity instrument is its fair value. The recoverable amount of debt instruments and purchased loans measured to fair value is calculated as the present value of the expected future cash flows discounted at the current market rate of interest.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in the statement of income. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

Impairment on tangible and intangible assets

On each balance sheet date, the Group evaluates whether there is an indication of impairment of fixed assets. If there is an objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 – Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

Provision and rediscount expenses of the period(s) are detailed in *Note 47*.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.10 Derivative financial instruments

Derivative instruments are treated as held for trading financial assets in compliance with the standard *TAS 39 – Financial Instruments: Recognition and measurement*.

Derivative financial instruments are initially recognized at their fair value.

The receivables and liabilities arising from the derivative transactions are recognized under the off-balance sheet accounts through the contract amounts.

Derivative financial instruments are subsequently remeasured at fair value and positive fair value differences are presented either as “income accruals” and negative fair value differences are presented as “other financial liabilities” in the accompanying financial statements. All unrealized gains and losses on these instruments are included in the statement of income.

As of June 30, 2023, the Group has no derivative financial instruments. (December 31, 2022: TL 9.811).

2.11 Offsetting of financial assets

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the Reporting Standards, or for gains and losses arising from a group of transactions resulting from the Group’s similar activities like trading transactions.

2.12 Cash and cash equivalents

Cash and cash equivalents, which is the basis for the preparation of the statement of cash flows includes cash on hand, cheques received, other cash and cash equivalents, demand deposits and time deposits at banks having an original maturity less than 3 months which are ready to be used by the Group or not blocked for any other purpose.

2.13 Capital

As at June 30, 2023 and December 31, 2022, the share capital and ownership structure of the Company are as follows:

Name	June 30, 2023		December 31, 2022	
	Shareholding amount (TL)	Shareholding rate (%)	Shareholding amount (TL)	Shareholding rate (%)
Republic of Turkey Ministry of Treasury and Finance	600.000.000	100,00	600.000.000	100,00
Paid in capital	600.000.000	100,00	600.000.000	100,00

The capital of the Company is TL 600.000.000 in total which consists of 600.000.000 shares, each of them is valued as TL 1. TL 600.000.000 corresponding to 600.000.000 shares, which are valued as TL 1 each, is paid in cash by Republic of Turkey Ministry of Treasury and Finance as of June 30, 2023.

As of June 30, 2023, there are not any privileges on common shares representing share capital (December 31, 2022: None).

As of June 30, 2023 and December 31, 2022, the Company is not subject to registered capital system.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.14 Insurance and investment contracts - classification

An insurance contract is a contract under which the Group accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. Insurance risk covers all risk except for financial risks. All premiums have been received within the scope of insurance contracts recognized as revenue under the account caption “written premiums”.

Investment contracts are those contracts which transfer financial risk with no significant insurance risk. Financial risk is the risk of a possible future change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, provided, that it is not specific to a party to the contract, in the case of a non-financial variable.

The Group acts as a reinsurer when writing insurance from an insurance company (cedant) on the basis of reinsurance contracts and cedes insurance business to another retrocessionaire (the retrocedant) on the basis of retrocession contracts.

As at the reporting date, the Group does not have a contract which is classified as an investment contract.

2.15 Insurance contracts and investment contracts with discretionary participation feature

Discretionary participation feature (“DPF”) within insurance contracts and investment contracts is the right to have following benefits in addition to the guaranteed benefits.

- (i) that are likely to comprise a significant portion of the total contractual benefits;
- (ii) whose amount or timing is contractually at the discretion of the Issuer; and
- (iii) that are contractually based on:
 - (1) the performance of a specified pool of contracts or a specified type of contract;
 - (2) realized and/or unrealized investments returns on a specified pool of assets held by the Issuer;
 - (3) the profit or loss of the Group, Fund or other entity that issues the contract

As of balance sheet date, the Group does not have any insurance or investment contracts that contain a DPF (December 31, 2022: None).

2.16 Investment contracts without discretionary participation feature

As of the reporting date, the Group does not have any insurance contracts and investment contracts without discretionary participation feature (December 31, 2022: None).

2.17 Liabilities

Financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity. Financial liabilities of the Group are measured at their discounted values. A financial liability is derecognized when it is paid.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.18 Taxes

Corporate tax

Statutory income is subject to corporate tax at 25%. This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. The withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 10%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their corporate tax returns to their tax offices by the end of last day of the fourth month of following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

With the “Law Amending the Tax Procedure Law and the Corporate Tax Law”, which was accepted on the agenda of the Turkish Grand National Assembly on January 20, 2022, the application of inflation accounting was postponed starting from the balance sheet dated on December 31, 2023.

Deferred tax

In accordance with *TAS 12 – Income taxes*, deferred tax assets and liabilities are recognized on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances considered in the calculation of the tax base, except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

Deferred tax assets and liabilities are reported as net in the financial statements if, and only if, the Group has a legally enforceable right to offset current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity.

In case where gains/losses resulting from the subsequent measurement of the assets are recognized in the statement of income, then the related current and/or deferred tax effects are also recognized in the statement of income. On the other hand, if such gains/losses are recognized as an item under equity, then the related current and/or deferred tax effects are also recognized directly in the equity.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.18 Taxes (continued)

Transfer pricing

The transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of “disguised profit distribution via transfer pricing”. The General Communiqué on disguised profit distribution via Transfer Pricing, dated November 18, 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm’s length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

2.19 Employee benefits

Pension and other post-retirement obligations

In accordance with existing Turkish Labour Law, the Group is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Group and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The computation of the liability is based upon the retirement pay ceiling announced by the Government. The applicable ceiling amount as at June 30, 2023 is TL 19.982,83 (December 31, 2022: TL 15.371,40).

In accordance with TAS 19 which published by Public Oversight Accounting and Auditing Standards Authority of Turkey (POA) dated March 12, 2013 and numbered 28585 is about “Benefits Employee Accounting Standard” and defined by beginning from December 31, 2012, net defined benefit liability of the actuarial gains and losses arising on re-measurement should be recognized in other comprehensive income under shareholders' equity and this effect should be applied retrospectively. The Group started to account current actuarial gains and losses under equity (other profit reserves) due to the fact that prior period actuarial gains and losses have remained below the materiality.

The Group accounted for employee severance indemnities using actuarial method in compliance with the TAS 19 – *Employee Benefits*.

The major actuarial assumptions used in the calculation of the total liability as of June 30, 2023 and December 31, 2022 are as follows:

	June 30, 2023	December 31, 2022
Discount rate	%3,95	%3,11
Expected rate of salary/limit increase	%25,00	%20,00

Other benefits

The Group has provided for undiscounted short-term employee benefits earned during the year as per services rendered in compliance with *TAS 19* in the accompanying financial statements.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.20 Provisions

A provision is made for an existing obligation resulting from past events if it is probable that the commitment will be settled and a reliable estimate can be made of the amount of the obligation. Provisions are calculated based on the best estimates of management on the expenses to incur as of the reporting date and, if material, such expenses are discounted to their present values. If the amount is not reliably estimated and there is not any probability of cash outflow from the Group to settle the liability, the related liability is considered as “contingent” and disclosed in the notes to the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, the Group discloses the contingent assets in the notes to the financial statements.

2.21 Revenue recognition

Written premiums

Written premiums represent premiums ceded from insurance and reinsurance companies as a reinsurance company. Premiums ceded to retrocessionaire companies are accounted as “written premiums, ceded” in the profit or loss statement. Written premiums are recorded upon the receipt of quarterly statements of accounts from cedant in treaties whereas facultative accounts are registered upon the receipt of monthly slips.

Claims paid

Claims paid represent payments of the Group as a reinsurance company when risks ceded from insurance and reinsurance companies are realized. Claims are recognised as expense upon the receipt of notifications. Notifications have not specific periods and depend on the initiative of the insurance and reinsurance companies.

Commission income and expenses

Commissions paid to the insurance and reinsurance companies and brokers related to the taken risk of written premium as a reinsurance company and the commissions received from the reinsurance companies related to the premiums ceded are recognized over the life of the contract by deferring commission income and expenses respectively within the calculation of reserve for unearned premiums for the policies produced.

Interest income and expenses

Interest income and expenses are recognized using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset and liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.21 Revenue recognition (continued)

Trading income/expense

Trading income/expense includes gains and losses arising from disposals of financial assets held for trading purpose and available-for-sale financial assets. Trading income and trading expenses are recognized as “Income from disposal of financial assets” and “Loss from disposal of financial assets” in the accompanying consolidated financial statements.

Dividends

Dividend income is recognized when the Group’s right to receive payment is ascertained.

2.22 Leasing transactions

Tangible assets acquired through finance leasing are recognised in tangible assets and the obligations under finance leases arising from the lease contracts are presented under finance lease payables account in the financial statements. In the determination of the related assets and liabilities, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs of leasing agreements are expanded in lease periods at a fixed interest rate.

If there is impairment in the value of the assets obtained through financial lease and in the expected future benefits, the leased assets are valued with net realizable value. Depreciation for assets obtained through financial lease is calculated in the same manner as tangible assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes as following;

- (a) the initial amount of lease liabilities recognised,
- (b) lease payments made at or before the commencement date less any lease incentives received, and
- (c) all initial direct costs incurred by the Group

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Right-of-use assets are subject to impairment.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.22 Leasing transactions (continued)

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The right of use which is calculated on leasing agreements is accounted under “Tangible Assets” account.

The interest expense on the lease obligation is accounted under “Investment Management Expense - Including Interest”, and the depreciation expense of the usage right asset is accounted under “Depreciation and Amortization Expenses”.

Information on the duration of the operating leases and discount rates applied are as follows:

Assets subject to operational leasing	Contract Period (Year)	Discount Rate - TL (%)
Buildings	3-5 years	11,32-23,00
Vehicles	2-3 years	10,92-23,00

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.23 Dividend distribution

Dividend distributions are reflected in the financial statements as a liability in the period in which they are declared as a component of profit distribution in accordance with Turkish Commercial Law, related tax laws, Insurance legislation and the Company’s Articles of Association.

2.24 Insurance technical provisions

Unearned premium reserve

In accordance with the “Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves” (“Communiqué on Technical Reserves”) which was issued in 26606 numbered and August 7, 2007 dated Official Gazette and put into effect starting from January 1, 2008, the unearned premiums reserve represents the proportions of the gross premiums written without deductions of commission or any other allowance, in a period that relate to the period of risk subsequent to the reporting date for all current insurance policies. Nonetheless;

- Unearned premium reserve is calculated on the basis of 1/8 for reinsurance and retrocession transactions that are not subject to basis of day or 1/24 due to application limitations,
- For commodity marine policies with indefinite expiration dates, 50% of the remaining portion of the premiums accrued in the last three months is also provided as unearned premium reserves.

In this frame the Group: for proportional reinsurance contracts, on the basis of 1/24 over the ceded premiums for treaty and facultative contracts, for commodity marine policies with indefinite expiration dates, 50% of the remaining portion of the premiums accrued in the last three months is also provided as unearned premium reserves and for facultative and non-proportional reinsurance contracts, on the basis on day by considering beginning and ending of the contracts. The Group calculates unearned premiums reserve for ceded premium as retrocedant on the same basis.

Unearned premiums reserve is calculated for all insurance contracts except for the contracts for which the mathematical reserve is provided. Reserve for unearned premiums is also calculated for the annual premiums of the annually renewed long term insurance contracts.

Unexpired risk reserves

In accordance with the Communiqué on Technical Reserves, while providing unearned premiums reserve, in each accounting period, the companies should perform adequacy test covering the preceding 12 months due to the probability that future claims and compensations of the outstanding policies may be in excess of the unearned premiums reserve already provided. In performing this test, it is required to multiply the unearned premiums reserve, net with the expected claim/premium ratio. Expected claim/premium ratio is calculated by dividing incurred losses (outstanding claims reserve, net at the end of the period + claims paid, net – outstanding claims reserve, net at the beginning of the period) to earned premiums (written premiums, net + unearned premiums reserve, net at the beginning of the period – unearned premiums reserve, net at the end of the period).

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.24 Insurance technical provisions (continued)

Unexpired risk reserves (continued)

According to the "Communiqué on Amendments to Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves" published in Official Gazette no 28356 dated July 17, 2012; besides the net unexpired risk reserve detailed in the above, gross unexpired risk reserve is also calculated. The test is performed on main branch basis and in case where the net and gross expected claim/premium ratio is higher than 95%, reserve calculated by multiplying the exceeding portion of the expected claim/premium ratio with the unearned premiums reserve of that main branch is added to the reserves of that branch. Difference between the gross and net amount is represents reinsurer's share. Premiums paid for non-proportional reinsurance agreements are considered as premiums ceded to the reinsurance firms.

According to the Circular numbered 2012/15 dated December 10, 2012, reserve for unexpired risks are calculated on main branches.

According to "Regulation on the technical provisions and assets which are to be invested of Insurance and Reinsurance and Pension Companies" ("Regulation"), unexpired risk reserve is calculated on net claim/premium ratio (outstanding claims (net) + claims paid (net)) / ((written premiums (net) – reserve for unearned premiums (net)) on a sub-branch basis. If the net claims/premiums ratio exceeds 95%, net amount of unexpired risk reserve is calculated as ratio which exceeds 95% by multiplying with net amount of unearned premiums reserve, gross unexpired risk reserve is calculated by multiplying with gross amount of unearned premiums reserve.

As a result of the calculation during the reporting period, the Group has TL 7.322.247 unexpired risk reserves (December 31, 2022: TL 25.027.508).

Outstanding claims reserve

The Companies are obliged to reserve outstanding claims provision for unearned compensation amounts that have been accrued and calculated but have not yet been paid in the previous accounting period or if this amount has not been calculated the provision should be reserved for the estimated amount that have accrued but have not been reported ("IBNR").

In accordance with the "Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves" ("Communiqué on Technical Reserves") which was issued in 27655 numbered and July 28, 2010 dated Official Gazette, all expenses related to the claim files including calculated or expected expertise, consultant, lawsuit and communication expenses are considered while the calculation of outstanding claims reserve. In these calculations salvage and subrogation income are not considered.

In accordance with the Regulation, the calculation of provisions for incurred but not reported outstanding claims and outstanding claims reserve adequacy difference calculated by the Company's actuary for the five years following the start of the activity are calculated. In addition, adequate differences will be calculated for extracted major damages that are determined by the actuary. The procedures and principles regarding the calculation of provisions for outstanding claim adequacy difference, sending these calculation table to the Republic of Turkey Ministry of Treasury and Finance and the addition of the calculated difference to provision for outstanding claims in financial statements are determined by the Republic of Turkey Ministry of Treasury and Finance.

Considering that calculations should be made on a fiscal year basis, and actuarial methods should be employed in relevant line of business when determining the incurred loss reserves due to the insufficient maturity of the Group's date-of-loss-based data. In this context, it is evaluated that the identified outstanding claim reserves also encompass the liability adequacy of the outstanding claim reserve.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.24 Insurance technical provisions (continued)

Outstanding claims reserve (continued)

Current or related reinsurance agreement conditions are considered in calculations of provisions for outstanding claims, ceded.

Except for the life branch, the difference between the outstanding claims reserve that has accrued and determined in amount, and the results of the actuarial chain ladder method whose content and application criteria stated by Republic of Turkey Ministry of Treasury and Finance, is called as incurred but not reported (“IBNR”) claims. Actuarial chain ladder method may be differentiated by Republic of Turkey Ministry of Treasury and Finance for reinsurance companies due to their special conditions.

December 5, 2014 dated “Circular regarding Outstanding Claims Reserve (2014/16)” and 2010/12 numbered “Circular regarding actuarial chain ladder method” except its Article 9 and 10 have abolished. According to circular that explains ACML measurement method, insurance and reinsurance companies calculate ACML with six different methods as “Standard Chain, Claim/Premium, Cape Cod, Frequency/Intense, Munich Chain and Bornhuetter-Ferguson”.

The Group, as a reinsurance company, selects data, adjustments, applicable methods and development factors by itself over the data obtained from insurance companies on a branch basis via actuarial methods. According to the article 11 clause 5 of “Circular on Actuarial Report for Non-Life Insurance Branch” dated November 6, 2008, selections and results should be assess in detail in actuarial report by the actuary.

In accordance with December 5, 2014 dated and 2014/16 numbered “Circular regarding Outstanding Claims Reserve”, the Group decided to record the IBNR once in a year and as of year-end since the data considered in calculation of IBNR, is constituted by taking base of acceptance year rather than casualty period for the reason of characteristic of reinsurance operations (December 31, 2022: Gross and ceded IBNR amount based on sub-branch except Agricultural sub-branches in the General Losses main branch was calculated by deducting incurred loss from final loss dated December 31, 2022 determined through sector loss ratio based on sub-branch due to insufficient data in branches. However, the IBNR amounts reported by Tarsim (Insurance of Agriculture) as of December 31, 2022 in the Agriculture sub-branches of the General Losses main branch were included in the financial statements. In the calculation of the ceded IBNR, the retrocession / gross ratio in the incurred loss on the basis of sub-branch is used. As of December 31, 2022, the Group reflected to consolidated financial statement the gross IBNR amount of TL 108.206.892 and TL 113.207.763 net IBNR calculated according to the method explained above).

In the framework of “Circular on Discounting Net Cash Flows Arising from Outstanding Claims Reserves” dated June 10, 2016 and numbered 2016/22 published by the Republic of Ministry of Treasury and Finance and “Circular on Making Amendments on Circular Numbered 2016/22 on Discounting of Net Cash Flows arising from Outstanding Claims” dated September 15, 2017 and numbered 2017/7 of Ministry of Treasury and Finance, discounting of net cash flows arising from outstanding claims reserves calculated and allocated according to insurance legislation has become obligatory in terms of General Liability and Land Vehicles Liability branches and possible in terms of other branches.

In accordance with the Circular No. 2023/21 on the Discounting of Net Cash Flows Arising from Outstanding Claims Provisions as of July 12, 2023, the rate taken into account for the discount has determined as 28% (December 31, 2022: %22).

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.24 Insurance technical provisions (continued)

Outstanding claims reserve (continued)

The Group has calculated taking into account the sector cash flow rates to discount of all branches. Accordingly, as of June 30 2023, the Group discounted the cash flows to will be generated by the outstanding claims provision, net of TL 452.861.929 (December 31 2022: TL 152.982.465).

Equalization reserve

In accordance with the Communiqué on Technical Reserves put into effect starting from November 10, 2021, the companies should provide equalization reserve in credit insurance and earthquake branches to equalize the fluctuations in future possible claims and for catastrophic risks. Equalization reserve, started to be provided in 2008, is calculated as 12% of net premiums written in credit insurance and earthquake branches. In the calculation of net premiums, fees paid for non-proportional reinsurance agreements are considered as premiums ceded to the reinsurance firms. The companies should provide equalization reserve up to reaching 150% of the highest premium amount written in a year within the last five years. In case where claims incurred, the amounts below exemption limits as stated in the contracts and the share of the reinsurance firms cannot be deducted from equalization reserves. Claims payments are deducted from first year’s equalization reserves by first in first out method.

With the Communiqué released on July 28, 2010 and numbered 27655 “Communiqué on Amendments to Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves”, ceded premiums of earthquake and credit for non-proportional reinsurance contracts covered multiple branches should be calculated according to percentage of premiums of those branches within the total premiums unless the Group is determined any other methods. Share of earthquake and credit premium of written premiums for non-proportional reinsurance contracts is based on share of earthquake and credit premiums of proportional reinsurance contracts. After five financial years, in case that provision amount is less than previous year amount depending on written premiums, the difference is recognized in other profit reserves under equity.

This amount recorded in equity can either be kept under reserves or can also be used in capital increase or paying claims.

Equalization reserves are presented under “Other technical reserves” within long term liabilities in the accompanying consolidated financial statements. As of the reporting date, the Group has recognized equalization reserves amounting to TL 128.297.494 (December 31, 2022: TL 88.203.783).

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.25 Related parties

Parties are considered related to the Group if:

(a) directly, or indirectly through one or more intermediaries, the party:

- controls, is controlled by, or is under common control with the Group (this includes parent, subsidiaries and fellow subsidiaries);
- has an interest in the Group that gives it significant influence over the Group; or
- has joint control over the Group;

(b) the party is an associate of the Group;

(c) the party is a joint venture in which the Group is a venturer;

(d) the party is member of the key management personnel of the Group and its parent;

(e) the party is a close member of the family of any individual referred to in (a) or (d);

(f) the party is an entity that is controlled or significantly influenced by, or for which significant voting power in such entity resides with directly or indirectly, any individual referred to in (d) or (e);

(g) the party is a post-employment benefit plan for the benefit of employees of the Group, or of any entity that is a related party of the Group.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

A number of transactions are entered into with related parties in the normal course of business

2.26 Earning per share

Earnings per share are determined by dividing the net income by the weighted average number of shares outstanding during the year attributable to the shareholders of the Group. In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares (“Bonus Shares”) to existing shareholders from retained earnings. For the purpose of earnings per share computations, such bonus shares issued are regarded as issued shares.

2.27 Subsequent events

Subsequent events that provide additional information about the Group’s position at the reporting dates (adjusting events) are reflected in the financial statements. Events after the reporting date that are not adjusting events are disclosed in the notes when material.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.28 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the consolidated financial statements as of June 30, 2023 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2023 and thereafter. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as of January 1, 2023 are as follows:

Amendments to TAS 8 - Definition of Accounting Estimates

In August 2021, POA issued amendments to TAS 8, in which it introduces a new definition of ‘accounting estimates’. The amendments issued to TAS 8 are effective for annual periods beginning on or after 1 January 2023. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amended standard clarifies that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

The previous definition of a change in accounting estimate specified that changes in accounting estimates may result from new information or new developments. This aspect of the definition was retained by the POA. The amendments apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of the effective date.

The Group does not expect a material impact on the financial statements.

Amendments to TAS 1 - Disclosure of Accounting Policies

In August 2021, POA issued amendments to TAS 1, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. In the absence of a definition of the term ‘significant’ in TFRS, the POA decided to replace it with ‘material’ in the context of disclosing accounting policy information. ‘Material’ is a defined term in TFRS and is widely understood by the users of financial statements, according to the POA. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and the nature of them. Examples of circumstances in which an entity is likely to consider accounting policy information to be material have been added.

The change did not have a significant impact on the financial position or performance of the Group.

Amendments to TAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

In August 2021, POA issued amendments to TAS 12, which narrow the scope of the initial recognition exception under TAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognised in the financial statements (and interest expense) or to the related asset component (and interest expense). This judgement is important in determining whether any temporary differences exist on initial recognition of the asset and liability. The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability for all deductible and taxable temporary differences associated with leases and decommissioning obligations should be recognized.

The amendments did not have a significant impact on the financial position or performance of the Group.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

2 Summary of significant accounting policies (continued)

2.28 The new standards, amendments and interpretations (continued)

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

In December 2017, POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted.

The Group will wait until the final amendment to assess the impacts of the changes.

TFRS 17 - The new Standard for insurance contracts

POA issued TFRS 17 in February 2019, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. TFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. Certain changes in the estimates of future cash flows and the risk adjustment are also recognised over the period that services are provided. Entities will have an option to present the effect of changes in discount rates either in profit and loss or in OCI.

The standard includes specific guidance on measurement and presentation for insurance contracts with participation features. In accordance with amendments issued by POA in December 2021, entities have transition option for a “classification overlay” to avoid possible accounting mismatches between financial assets and insurance contract liabilities in the comparative information presented on initial application of TFRS 17.

The mandatory effective date of the Standard for the following entities has been postponed to accounting periods beginning on or after January 1, 2024 with the announcement made by the POA:

- Insurance, Reinsurance and Pension Companies.
- Banks that have partnerships/investments in insurance, reinsurance and pension companies.
- Other companies that have partnerships/investments in insurance, reinsurance and pension companies.

The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

2 Summary of significant accounting policies (continued)

2.28 The new standards, amendments and interpretations (continued)

ii) Standards issued but not yet effective and not early adopted (continued)

Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities

In January 2020 and January 2023, POA issued amendments to TAS 1 to specify the requirements for classifying liabilities as current or non-current. According to the amendments made in January 2023 if an entity’s right to defer settlement of a liability is subject to the entity complying with the required covenants at a date subsequent to the reporting period (“future covenants”), the entity has a right to defer settlement of the liability even if it does not comply with those covenants at the end of the reporting period. In addition, January 2023 amendments require an entity to provide disclosure when a liability arising from a loan agreement is classified as non-current and the entity’s right to defer settlement is contingent on compliance with future covenants within twelve months. This disclosure must include information about the covenants and the related liabilities. The amendments clarified that the classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least twelve months after the reporting period. The amendments are effective for periods beginning on or after 1 January 2024. The amendments must be applied retrospectively in accordance with TAS 8. Early application is permitted. However, an entity that applies the 2020 amendments early is also required to apply the 2023 amendments, and vice versa.

The Group does not expect a material impact on the financial statements.

Amendments to TFRS 16 - Lease Liability in a Sale and Leaseback

In January 2023, POA issued amendments to TFRS 16. The amendments specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. In applying requirements of TFRS 16 under “Subsequent measurement of the lease liability” heading after the commencement date in a sale and leaseback transaction, the seller lessee determines ‘lease payments’ or ‘revised lease payments’ in such a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee. The amendments do not prescribe specific measurement requirements for lease liabilities arising from a leaseback. The initial measurement of the lease liability arising from a leaseback may result in a seller-lessee determining ‘lease payments’ that are different from the general definition of lease payments in TFRS 16. The seller-lessee will need to develop and apply an accounting policy that results in information that is relevant and reliable in accordance with TAS 8.

A seller-lessee applies the amendments to annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted. A seller-lessee applies the amendments retrospectively in accordance with TAS 8 to sale and leaseback transactions entered into after the date of initial application of TFRS 16.

Generally, the Group does not expect a material impact on the financial statements.

2 Summary of significant accounting policies (continued)

2.28 The new standards, amendments and interpretations (continued)

iii) Amendments published by the International Accounting Standards Authority (UMSK) but not by the POA

The amendments to IAS 12 and IAS 7 and IFRS 7 mentioned below have been published by the IASB, but have not yet been adapted/published by the POA to TFRS. For this reason, they do not form part of TFRS. The Group will make the necessary changes in its financial statements and notes after these changes come into force in TFRS.

IAS 12 Amendments – International Tax Reform – Second Step Model Rules

In May 2023, IASB issued amendments to IAS 12, which introduce a mandatory exception in IAS 12 from recognizing and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. The amendments clarify that IAS 12 applies to income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two Model Rules published by the Organization for Economic Cooperation and Development (OECD). The amendments also introduced targeted disclosure requirements for entities affected by the tax laws.

Generally, the Group does not expect a material impact on the financial statements.

IAS 7 and IFRS 7 Amendments - Explanations: Supplier Financing Agreements

The amendments issued in May 2023 specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity’s liabilities, cash flows and exposure to liquidity risk. Supplier finance arrangements are characterized by one or more finance providers offering to pay amounts an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, suppliers are paid. The amendments require an entity to provide information about terms and conditions of those arrangements, quantitative information on liabilities related to those arrangements as at the beginning and end of the reporting period and the type and effect of non-cash changes in the carrying amounts of those liabilities. In the context of quantitative liquidity risk disclosures required by IFRS 7, supplier finance arrangements are also included as an example of other factors that might be relevant to disclose.

Generally, The Group does not expect a material impact on the financial statements.

3 Critical accounting estimates and judgments in applying accounting policies

The notes given in this section are provided to addition/supplement the commentary on the management of insurance risk note 4.1 – *Management of insurance risk* and note 4.2 – *Financial risk management*.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas at estimation uncertainty and critical judgment in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are described in the following notes:

- Note 4.1 – *Management of insurance risk*
- Note 4.2 – *Financial risk management*
- Note 10 – *Reinsurance assets/liabilities*
- Note 11 – *Financial assets*
- Note 12 – *Loans and receivables*
- Note 17 – *Insurance liabilities and reinsurance assets*
- Note 21 – *Deferred taxes*
- Note 23 – *Other liabilities and cost provisions*
- Note 34 – *Financial costs*

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

4 Management of insurance and financial risk

4.1 Management of insurance risk

Objective of managing risks arising from insurance (reinsurance) contracts and policies used to minimize such risks

Reinsurance and retrocession risk are defined as a possibility of financial loss due to inappropriate and insufficient application of reinsurance techniques in the activities of taking insurance contract responsibility partially or completely.

Potential risks that may be exposed in transactions are described, classified and managed based on the requirements set out in the Group’s “Risk Acceptance Criteria” issued by the approval of the Board of Directors.

The main objective of the “Risk Acceptance Criteria” is to determine the risk measurement, assessment, and control procedures and maintain consistency between the Group’s asset quality and limitations allowed by the insurance standards together with the Group’s risk tolerance of the accepted risk level assumed in return for a specific consideration. In this respect, instruments that are related to risk transfer, such as; insurance risk selection, risk quality follow-up by providing accurate and complete information, effective monitoring of level of claims by using risk portfolio claim frequency, treaties, facultative reinsurance contracts and coinsurance agreements, and risk management instruments, such as; risk limitations, are used in achieving the related objective.

Reinsurance risk is measured by quantitative methods and kept under pre-specified limits based on the “Limit over Acceptable Reinsurance Risk and Maximum Custody Share Limit” updated and approved annually by the Board of Directors.

Reinsurance risk is monitored regularly according to criteria described in the “Limit over Acceptable Reinsurance Risk and Maximum Custody Share Limit” policy and results are analysed and reported to the Board of Directors. Action plan is determined by the Board of Directors in the case of having exposure higher than acceptable level of risk and probability.

Sensitivity to insurance risk

Insurance risks do not generally have significant unrecoverable losses in the course of ordinary transactions, except for risks associated with earthquake and other catastrophic risks. Therefore, there is a high sensitivity to earthquake and catastrophic risks.

The case of potential claims’ arising from earthquake and other catastrophic risks exceeding the maximum limit of the excess of loss agreements, such risks are treated as the primary insurance risks and are managed based on the precautionary principle. Maximum limit of excess of loss agreements is determined based on the worst-case scenario on the possibility of an earthquake in terms of its severity and any potential losses incurred in accordance with the generally accepted international earthquake models.

4.2 Management of insurance risk

Introduction and overview

This note presents information about the Group's exposure to each of the below risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors monitors the effectiveness of the risk management system through the internal audit department.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

4 Management of insurance and financial risk (continued)

4.2 Management of insurance risk (continued)

Credit risk

Credit risk is the risk of financial loss to the Group if counterparties (parties issued financial instrument, insurance companies, reinsurance companies and other debtors) having business relationship with the Group fails to meet its contractual obligations. The Group manages this credit risk by regularly assessing reliability of the counterparties. The balance sheet items that the Group is exposed to credit risk are as follows:

- Banks
- Available for sale financial assets
- Held for trading financial assets
- Premium receivables from insurance companies
- Premium receivables from brokers due to reinsurance activity
- Receivables related to commission from retrocessionaire
- Reinsurance shares of insurance liability
- Prepaid expenses
- Other receivables

Credit risk is measured by both quantitative and qualitative methods. The Group assess the financial strengths, financial positions and payment performance of companies described as third party. In addition, the Group consider to credit ratings confirmed by international credit rating agencies related to retrocessionaire.

The results evaluated by the Risk Committee and reported regularly to the Board of Directors. Action plan is determined by the Board of Directors in the case of having exposure higher than acceptable level of risk and probability.

Net book value of the assets that is exposed to credit risk is shown in the table below.

	June 30, 2023	December 31, 2022

4 Management of insurance and financial risk (continued)

4.2 Management of insurance risk (continued)

Credit risk (continued)

As at June 30, 2023 and December 31, 2022, the aging of the receivables from main operations and related provisions are as follows:

	June 30, 2023		December 31, 2022	
	Gross Amount	Provision	Gross Amount	Provision
Not past due	2.665.955.053	-	1.775.893.118	-
Past due 0-30 days	31.177.441	-	6.722.027	-
Past due 31 – 60 days	12.317.822	-	3.670.736	-
Past due 61 – 90 days	40.192.971	-	15.376.767	-
Past due 90+	32.417.132	-	9.307.076	-
Total	2.782.060.419	-	1.810.969.724	-

The Group does not have any allowance for impairment losses for receivables from main operations as of June 30, 2023 (December 31, 2022: None).

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset as a result of the imbalance between the Group's cash inflows and outflows in terms of maturity and volume.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities.

In respect of this risk which is measured by quantitative methods, any liquidity deficit is observed via the maturity analysis of assets and liabilities in the statement of balance sheet. Furthermore, liquidity structure of the Group is monitored by using the following basic indicators in respect of liquidity ratios.

- Liquid Assets / Total Assets
- Liquidity Ratio
- Current Ratio
- Premium and Reinsurance Receivables / Total Assets

Action plan is determined by the Board of Directors in the case of having exposure higher than acceptable level of risk and probability.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated)

4 Management of insurance and financial risk (continued)

4.2 Management of insurance risk (continued)

Market risk (continued)

Market risk is the risk that changes in market prices, such as interest rate, foreign exchange rates and credit spreads will affect the Group’s income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Foreign currency risk

The Group is exposed to foreign currency risk through insurance and reinsurance transactions in foreign currencies.

The Group’s exposure to foreign currency risk is as follows:

June 30, 2023	US Dollar	Euro	Other currencies	Total
Receivables from main operations	193.262.337	188.150.578	74.089.348	455.502.263

(*) According to the “Communiqué on Amendments to Communiqué on Technical Reserves for Insurance, Reinsurance and Pension Companies and the Related Assets That Should Be Invested Against Those Technical Reserves” published in Official Gazette no 27655 dated July 28, 2010; foreign currency denominated claims provisions evaluated by the Central Bank of Republic of Turkey’s spot selling rates.

In order to evaluate the table above, the TL equivalents of the relevant foreign currency amounts are shown. If no exchange rate is specified, foreign currency technical provisions are valued at the CBRT’s selling rate of June 30, 2023, while other foreign currency transactions are accounted at the prevailing exchange rates on the date of the transaction, and as of the end of the reporting period, assets are valued at the CBRT buying rates and liabilities are valued at the CBRT selling rate as of June 30, 2023 and the resulting exchange rate differences are recorded as foreign exchange profit and loss.

Market risk (continued)

Exposure to foreign currency risk

Foreign currency rates used for the translation of foreign currency denominated monetary assets and liabilities as of June 30, 2023 and December 31, 2022 are as follows:

	End of period -Buying		End of period -Selling		Average	
	US Dollar	EUR	US Dollar	EUR	US Dollar	EUR
June 30, 2023	25,8231	28,154	25,8696	28,2048	19,7992	21,4073
December 31, 2022	18,6983	19,9349	18,732	19,9708	16,5443	17,3629

The change in equity and the income statement (excluding tax impact) is shown in the following table during the accounting periods ended June 30, 2023 and December 31, 2022 due to the 10 percent depreciation of the TL against the following currencies. This analysis was prepared on the assumption that all other variables, especially interest rates, remain constant. If TL values 10 percent against related currencies, the effect will be in the same amount but in the opposite direction.

	June 30, 2023		December 31, 2022	
	Profit or loss	Equity ^(*)	Profit or loss	Equity ^(*)
US Dollar	(24.967.088)	(24.967.088)	(592.660)	(592.660)
Euro	(20.083.732)	(20.083.732)	16.672.271	16.672.271
Other	(3.053.452)	(3.053.452)	(2.145.944)	(2.145.944)
Total, net	(48.104.272)	(48.104.272)	13.933.667	13.933.667

(*) Equity effect also includes profit or loss effect of 10% depreciation of TL against related currencies.

Exposure to interest rate risk

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

As at reporting date, the variable interest income and interest-bearing financial assets and liabilities are as follows:

	June 30, 2023	December 31, 2022
Financial assets / (liabilities) with fixed interest rates:		
Cash at banks (Note 14)	2.378.484.899	562.663.268
Available for sale financial assets – Government bonds – TL (Note 11)	5.000.589	22.737.652
Available for sale financial assets – Private sector borrowing bonds – TL (Note 11)	98.472.712	64.773.172
Available for sale financial assets – Private sector bonds – TL (Note 11)	77.673.058	57.745.443
Held for trading financial assets – FX indexed financial assets (Note 11)	288.720.636	696.992.052
Financial assets / (liabilities) with variable interest rate:		
Available for sale financial assets – Private sector bonds – TL (Note 11)	43.870.952	36.989.866

Fair value information

The estimated fair values of financial instruments have been determined using available market information, and where it exists, appropriate valuation methodologies.

The Group has classified its financial assets as available for sale, held for trading or held to maturity. As of the reporting date, available for sale financial assets and financial assets held for trading are measured at their fair values based on their quoted prices or fair value information obtained from brokers in the accompanying consolidated financial statements.

Management estimates that the fair value of other financial assets and liabilities are not materially different than their carrying values.

Classification relevant to fair value information

IFRS 7 – *Financial instruments: Disclosures* requires the classification of fair value measurements into a fair value hierarchy by reference to the observability and significance of the inputs used in measuring fair value of financial instruments measured at fair value to be disclosed. This classification basically relies on whether the relevant inputs are observable or not. Observable inputs refer to the use of market data obtained from independent sources, whereas unobservable inputs refer to the use of predictions and assumptions about the market made by the Group. This distinction brings about a fair value measurement classification generally as follows.

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3: Fair value measurements using inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Classification requires the utilization of observable market data, if available.

In accordance with *IFRS 13 - Measurement of Fair Value* standard effective from January 1, 2013, all assets measured at fair value are classified and presented in an order that reflects the importance of the data used in determining their fair value.

Held for trading financial assets (Note 11)	785.158.447	696.992.052	-	1.482.150.499
Total	1.012.380.110	696.992.052	-	1.709.372.162

Equity shares price risk

Equity share price risk is defined as the risk of decreasing the market price of equity shares as a result of a decline in index.

The effect on income as a result of 10% decrease in the fair value of equity share instruments available for sale financial assets (traded at İstanbul Stock Exchange) due to a reasonably possible change in equity share indices, with all other variables held constant, is as follows (excluding tax effect):

	June 30, 2023		December 31, 2022	
	Profit or loss	Equity	Profit or loss	Equity
Available for sale financial assets	(39.658.317)	(39.658.317)	(4.497.553)	(4.497.553)

5 Segment Information

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

As of June 30, 2023 and December 31, 2022, the Group operates in non-life branches and is not required to present segment reporting since its debt or equity instruments are not traded in a public market. The main geographical segment the Group operates is in Turkey, so the Group does not disclose geographical segment reporting.

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

15 Equity

Paid in capital

As of June 30, 2023 and December 31, 2022, the shareholding structure of the Company is as follows:

Name	June 30, 2023		December 31, 2022	
	Shareholding amount (TL)	Shareholding rate (%)	Shareholding amount (TL)	Shareholding rate (%)
Republic of Turkey Ministry of Treasury and Finance	600.000.000	100,00	600.000.000	100,00
Paid in capital	600.000.000	100,00	600.000.000	100,00

The capital of the Company is TL 600.000.000 in total which consists of 600.000.000 shares, each of them is valued as TL 1. TL 600.000.000 corresponding to 600.000.000 shares, which are valued as TL 1 each, is paid in cash by Republic of Turkey Ministry of Treasury and Finance as of June 30, 2023.

There are not any privileges on common shares representing share capital.

Legal reserves

The legal reserves consist of first and second legal reserves in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of the statutory profits at the rate of 5%, until the total reserve reaches a maximum of 20% of the entity's share capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of 5% of the entity's share capital. The first and second legal reserves are not available for distribution unless they exceed 50% of the share capital but may be used to absorb losses in the event that the general reserve is used.

The movement table for legal reserves is as follows;

	June 30, 2023	December 31, 2022
Legal reserves at the beginning of the period	15.331.450	4.271.283
Transfer from profit	-	11.060.167
Legal reserves at the end of the period	15.331.450	15.331.450

15 Equity (continued)

Valuation of financial assets

As of June 30, 2023 and 2022, detailed change of fair value of marketable securities, debt securities classified as available for sale financial assets is as following:

	June 30, 2023		June 30, 2022	
	Available for sale financial assets	Total	Available for sale financial assets	Total
Revaluation differences at the beginning of the period	6.400.863	6.400.863	(10.883.629)	(10.883.629)
Change in the fair value during the period	(42.252.596)	(42.252.596)	7.527.885	7.527.885
Deferred tax effect	10.873.477	10.873.477	(1.665.229)	(1.665.229)
Revaluation differences at the end of the period	(24.978.256)	(24.978.256)	(5.020.973)	(5.020.973)

Other Profit Reserves

In accordance with TAS 19 which published by Public Oversight Accounting and Auditing Standards Authority of Turkey (POA) dated March 12, 2013 and numbered 28585 is about "Benefits Employee Accounting Standard" and defined by beginning from December 31, 2012, net defined benefit liability of the actuarial gains and losses arising on re-measurement should be recognized in other comprehensive income under shareholders' equity and this effect should be applied retrospectively. The Group started to account current actuarial gains and losses under equity (other profit reserves) due to the fact that prior period actuarial gains and losses have remained below the materiality.

The movement table of other profit reserves as of June 30, 2023 and 2022 is as follows:

	June 30, 2023	June 30, 2022
Other profit reserves at the beginning of the period	191.652	(39.373)
Actuarial (loss)/gain (Note 23)	(1.018.860)	404.843
Deferred tax effect	254.715	(98.750)
Other profit reserves at the end of the period	(572.493)	266.720

Revaluation surplus amounting to TL 21.660.007 which generated as a result of the revaluation application of depreciable tangible and intangible assets purchased before 2022 within the scope of Temporary Article 32 and reiterated Article 298's paragraph (ç) of the Tax Procedure Law, has been transferred from the 'Retained Earnings' to the 'Other Profit Reserves' within the framework of the provisions of the Tax Procedure Law General Communiqué numbered 537 and published in the Official Gazette dated January 14, 2023.

16 Other reserves and equity component of discretionary participation

As of June 30, 2023 and December 31, 2022, other reserves are explained in detail in Note 15 – Equity above.

As of June 30, 2023 and December 31, 2022, the Group does not hold any insurance or investment contracts which contain a discretionary participation feature.

Türk Reasürans Anonim Şirketi

Notes to the Consolidated Financial Statements

As of June 30, 2023

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated)

17 Insurance contract liabilities and reinsurance assets

Estimation of the ultimate payment for the outstanding claims is one of the most important accounting assumptions of the Group. Estimation of the insurance contract liabilities contains several ambiguities by nature. The Group makes calculation of the related insurance technical provisions accordance with the Insurance Legislation and reflects them into financial statements as mentioned in *Note 2 – Summary of significant accounting policies*.

As at June 30, 2023 and December 31, 2022, technical reserves of the Group are as follows:

	June 30, 2023	December 31, 2022

	June 30, 2023	December 31, 2022
B3i Services AG – acquisition of fixed assets	-	10.555

46 Subsequent events

Amendments were made to the Corporate Tax Law No. 5520 with a Law submitted to the Grand National Assembly of Turkey on 5 July 2023 and published in the Official Gazette dated 15 July 2023. According to this; the corporate tax rate has been increased from 20% to 25%, starting from the declarations that will be submitted as of 1 October 2023. In addition, starting from 15 July 2023; 50% tax exception ratio stipulated for immovable assets' sales gains in the Law No. 5520 has been abolished with the amendment. However, the 50% tax exemption ratio will be applied as 25% for the sales of immovable assets of the entities acquired before 15 July 2023. Efforts to determine the effects of these changes on current and deferred tax amounts continue.

None.

Subrogation recorded in “Off-Balance Sheet Accounts”

None.

Explanatory note for the amounts and nature of previous years’ income and losses

The provision amount related to the annual corporate income tax return deadline is included in the financial statements under the principle of periodicity in accounting. This is due to the fact that the deadline for filing the annual corporate income tax return is later than the date of the last publication of their financial statements as determined by the Insurance Law No. 5684, for insurance, reinsurance, and pension companies. In this context, the Group records the difference that arises between the provision amount for the corporate income tax for the year 2022, reflected in its financial statements prepared as of December 31, 2022, and the definitive tax amount realized in the 2022 corporate income tax return. This difference is appropriately recorded in the current period income statement under the 'Prior year’s income and profits' or 'Prior year’s expenses and losses' line, taking into account its impact.

Information on Other income items in income statement for the period ended June 30, 2023 and 2022

Other technical expenses in the income statement amounting to TL 87.602.606 consists of technical expenses arising from reinsurance business acceptances and deferral of these expenses (January 1- June 30, 2022: TL 34.953.123).
